(571) 273-1654 (fax)

It is Applicant's intention that such an interview will lead to an agreeable resolution of the rejected claims.

**Interview Agenda**

**Claim Rejections Under § 112**

Applicants believe that the below amendment to Claim 1 further clarifies the terms "longitudinal recessed portion," "a side surface" and "a side direction of the device."

**Proposed Claim Amendment**

1. (currently amended): A compound semiconductor light-emitting device comprising a substrate having major surface, ~~and a~~ device side surface and having a light-emitting layer provided on the major surface of said substrate, wherein at least a part of a substrate portion of the device side surface has longitudinal recessed portions inwardly extended in a side direction of the device perpendicular to the major surface of the substrate, and the recessed portions have a semi-circular shape in cross section.
